DETAILED ACTION

1. Claims 11, 12, 16-23 have been examined.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 11 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claims 11 and 19 recites "performing a digital signature processing to the encrypted encryption key information"; however, it is not clear what type of digital signature process is being performed. Please clarify.

5. Claims 11 and 19 recites "determining whether the license information indicates that the encrypted digital contents information is officially copied contents information" and performing a digital signature processing if this is the case. However, the preamble defines license information as "indicating whether the encrypted digital contents information is officially copied contents information which is copied under a right for selling the contents information or privately copied contents information which is copied without a right for selling the contents information". The claims do not clarify what happens if it is determined that the license information is not officially copied but privately copied instead. Please clarify.

6. Claims 12, 16-18, 20-23 are dependent upon claims 11 or 19; therefore these claims are also rejected under 35 U.S.C. 112.

Claim Objections

7. Claim 16 objected to because of the following informalities: typographically error- please delete “page 32,line 23....22” from claim 16. Appropriate correction is required.
8. Claim 22 is objected to because of the following informalities: typographically error – please add a period to the end of claim 22. Appropriate correction is required.
